TelNet Unified Communications

# TelNet UC-One Application Suite

The all-in-one communication app that keeps you connected to everyone and everything.

### Reliable calling and conference capabilities

- HD voice and video conferencing
- Place and receive calls from your preferred device with the same business phone number
- Improve communication efficiency with easy screen sharing

### Advanced messaging capabilities

- Send messages in real time to keep projects moving forward
- Synced chat history across all devices ensures a record of all communications
- Signal availability and location to colleagues through presence indicators

### Integrates with:

### More productive virtual meetings

- Each UC-One Application Suite seat includes a private, secure online meeting space ideal for casual collaboration
- Easily invite coworkers and external guests to join your collaboration session
- Replace complicated dial-in numbers and passcodes with personalized links

### Seamless business application integration

- Improve information management and sharing with pre-integrated third party applications
- Expedite productivity with micro-app views and quick actions
- Quickly view and share content you have in common with other team members
